

Recruitment of Group Head of Taxation Oil Spill Response Limited

Brief

Oil Spill Response Limited (OSRL) is the largest international industry-funded cooperative which exists to respond to oil spills wherever in the world they may occur, by providing preparedness, response and intervention services. They are wholly owned by several of the most environmentally responsible oil and gas companies, and their membership represents the majority of global oil

production. They currently employ 300 people across 10 locations around the world.

Response

Chilworth Partnership was retained to conduct a search for a new Group Head of Taxation, a complex global tax role with responsibility for a wide variety of taxes – personal, corporate and direct, including withholding taxes. The role also involved

managing a small highly skilled and experienced team of tax professionals.

Outcome

Having identified a very high quality shortlist of relevant tax professionals, Oil Spill Response appointed through Chilworth Partnership a big four qualified accountant with very relevant global tax experience gained in a FTSE100 business.

"I used Chilworth Partnership both as a candidate and subsequently as a client. I retained them to conduct a retained search for a Group Head of Taxation – a global and technical tax role. I found Chilworth Partnership to be very consultative, gaining a very good understanding of our requirements and particularly the technical aspects of the brief. I would have no hesitation in using them again for senior level recruitment".

Tony Prest

CFO, Oil Spill Response Limited
