

MARKET UPDATE – SUMMER 2018

In tradition, we kicked off the Summer season with a celebratory day at Goodwood Races. It was an exceptional day and a great opportunity to welcome our new team members.

The summer has been extremely busy for Venture as our clerical, supervisory and part-qualified permanent team - Andrew Murkitt and Henry Hurrell have been talking to a large number of Chilworth and Venture's existing clients to inform them of our wider offering. Our executive team, after a quiet Summer are now handling a multitude of senior roles for some prestigious new companies as well as some existing longer-term clients. Kiren Sandhu, our Resource Manager for the permanent team has transitioned smoothly into her new role, carrying out regular updates with permanent candidates, alerting us to new roles within the job market. She has also been identifying and approaching top quality candidates for a number of our retained searches.

In interim news - our Interim Candidate Manager, Charlotte Longworth is currently settling in well to her newly created role, giving our interim managers a higher level of service and contact, alerting us to their availability and handling all contract administration. With the significant upturn in our interim business, this has been an excellent appointment.

Chilworth Partnership was recently recognised by the Interim Management Survey (IIM) 2018 as one of the **Top UK interim providers**, moving up the rankings for the fourth year running, accrediting us Silver Service Providers! Given our single office location and our focus on Finance-only roles we are very proud of this achievement and thank all of you for helping us to improve our ranking yet again.

The past year and a half has mainly been characterised by a strong interim market, largely due to the uncertainty surrounding Brexit. However, the last few weeks there has been an increase in permanent recruitment, particularly senior level roles.

Our Chilworth Partnership & Venture Recruitment Partners **blog** and **YouTube** accounts are now fully up and running. We are regularly posting a variety of videos including latest vacancies, so watch this space!

As the Summer season comes to an end, may we kindly draw your attention to our annual **Business Breakfast Event** on the 15th November 2018. We have altered our usual format as the location is now at the St Mary's Football Stadium in Southampton. **Save the date!**

It is sure to be a tremendous event with **Dr. Ed Coats** – an Obstetrician & Adventurer as our special guest speaker. Ed accompanied Ben Fogle and James Cracknell in the race to the South Pole. He uses storytelling and mindfulness techniques to give participants the tools to embrace challenge and live for the moment.
